Mexican Herders and Peace Officers Shot and Killed by Cow Boys, in Employ of Cattlemen --- A Stinging Rebuke from Gov. Ross.

CHICAGO, ILLS., Feb. 15 .- A special published this morning says: Great excitement exists among the peop on and about the cattle range of the Kansas and New Mexican Cattle Company, in northwestern New Mexico and southwestern Colorado because of the killing of Mexican sheep herders by cowboys in the employ of the cattle company.

Governor Ross has received reports, backed by affidavits, detailing outrages committed by cow boys and has offered rewards for the perpetrators. Juan Augustin Jaquez, a prominent Mexican, makes affidavit that he was one of the posse summoned by Constable Nartinez to aid in the execution of a writ issued by a justice of the peace for the arrest · of several cow boys on the public domain in Callego canon, six miles from the cattle company's water tanks. Jaquez states that the constable and posse went to the tanks to arrest four men, supposed to have done the shooting. Upon arriving there the constable opened fire on them, killing Ricardo Jaquez and wounding one Alle Jandro. The posse iled without making arrests. The men who did the shooting were employes of the company known as the English Cattle Company and managed by the Carlisle Bros. When Gov. Ross offered a reward of \$500 for the murderer of Ricardo Jaques, and \$100 for each of the men concerned in the shooting, Carlisle, president of the cattle company, wired the governor from Durango that the shooting was in self-defense and justifiable, and the men who did it had been acquitted in a justice's court.

The governor replied to Carlisle's telegram Saturday, that he had before him a transcript of the proceedings in the justice's court, and after summing up the case, said the testimony of Carlisle's own employes showed conclusively that they were the aggressors. He added: "Other facts in this matter have come to my knowledge by hearsay, but from what I deem reliable sources of a most extraordinary character, that your men took into the courtroom their arms and equipments; that a cocked Winchester was held upon one of the Mexican witnesses while testifying; that the Mexicans actually gave their testimony under duress; that the constable was under duress, and yet you call this an honorable acquittal of the men, who virtually confess they were guitty of an unpro voked act of lawlessness. Allow me to say in conclusion that as I know and believe, from most reliable information, this whole transaction is an outrageous affair. Crimes bearing strong resemblances to highway and murder have been robbery committed by men in your employ, and for your benefit and in your name. You sent these men with your cattle herds upon a quarter of public domain that has been occupied exclusively by these Mexican sheep herders for a generation or more, to which you had no shadow of priority of right title. Not even, if I am correctly informed, the common right of an American citizenship. Through the action of your employes you are an invader by force of arms of the become altogether too frequent; our laws are rigid and ample for the protection of both of these great indus-It is my sworn duty to see these

shall seek to perform by every instrument that the law in it elf placed in my hands for that purpose.

It is said the Carlisle Bros. are unnaturalized Englishmen, and that it is probable they will place the matter be-

fore the British ministry. Death of Constable Frazier.

Mr. John Lawrence Frazier, the young man who was shot by W. J. Gilmer, justice of the peace of the fourth district, at four mile bridge Saturday evening last, on account of an article which Frazier had published in the his home at two o'clock yesterday morning and was buried in the family burying ground on the old Battle talia county, where his father, mother, sister and brother live. He was an industrious farmer and an upright, conscientous and and brave man. Through a desire to please his friends who are the taxpayers of the Fourth district, he accepted the position of constable at the last county election, and it was through a conscientious belief that he could not fill that position with safety to himself and bondsmen that he wrote his resignation and dictated the interview in regard to it which caused his death.

LITTLE ROCK, TO VICKS-BURG.

The Memphis & Little Rock Rallroad and the Grand Prairies of Arkansas--The Louisville, New Orleans & Texas Railroad and the Great Valley of the Mississippi--Vicksburg.

Special Correspondence Commercial Herald. VICKSHUHG, MISS., Feb. 15, 1886.

The writer in passing through your beautiful city from Little Rock, Ark., may be allowed a few notes by the The trip over the Memphis & Little Rock road was pleasant in every way, and that road is now in excellent condition and supplied with all the modern improvements. It has got rid of the Gould grip and is now ably managed by Randolph Fink to the profit of the company and the public

satisfaction. The grand prairies over which this line passes, and so well remembered by all who have seen them, are well dotted over with houses and farms, and these lands produce oats, corn and fruits abundantly.

The Railroad Company have sold most of their grant, but have some left which they offer at reasonable prices and on easy terms at their Land Office in Little Rock.

The trip from Memphis down over the Louisville, New Orleans & Texas Railway was a constant surprise at the unsurpassed wealth of soil in this, the grandest valley of our country. It can be compared to nothing but the valley of the Nile in Egypt, which gave glory to the Pharaohs and built the pyramids.

No wonder that Vicksburg is the prosperous city that she is, and her possibilities for the future who can tell? The opening up of the L., N. O. & T. railroad through this magnificent valley, and through your city, must of necessity open up agricultural and commercial prosperity that must ever increase. This road is but a link in Huntington's great chain across the Continent, and so far eclipses the glory of the Gould system as the sun does the moon, and is the direct outlet for the grain and meat of Kansas, and the Northwest to and through your city to New Orleans and the markets of

The road is in splendid order, magnificently equipped and ably managed, and is a great benefit to the great Mississippi Valley and to our common country. Let the people know what a country you have here, and let them come and be happy.

What a Change.

A few short weeks ago that young girl was the personification of health, vigor and beauty. The blush upon her cheeks rivalled that of the rose; her step was light and buoyant, her every movement was revelation of perfect physical health. Yet now she is pallid and baggard, and her superabundant vitality has given place to a strange duliness and lassitude. What has caused this change? Functional irregularities, which can be cured by Dr. Pierce's Favorite · Prescription," a remedy to which thousand's of women to-day owe their lives. All druggists.

Thief Caught. Charles Johnson, alias Harry Miles,

was lodged in the city work-house yesterday, on two substantial charges of largeny. The facts as related soil of New Mexico and a violator of the officers and interested parties are its laws. This character of assault as follows : Monday morning Mr. Ike upon the sheep and other herders of Block, a drummer, gave his overcoat the territory in the interest of to a porter at the Washington hotel the cattle industry, or at least by and took a check for the same. Repersons engaged in that industry, has turning in a short while asked for his coat, and was told that it was missing. A detective was called in and the matter was placed in his hands. About noon another coat was missing. The detective found that Sam laws faithfully executed. This duty I Graham, a colored tailor, had a coat from a stranger for \$3.50 and Mr. Block soon selected his coat from the number hanging in Graham's shop, which he said was the one he had purchased. Yesterday morning two policemen and Mr. Ben Hume, under direction from Graham, traced Johnson, who was identified as the man, into Mrs. Sheeban's house, on Washington street, opposite the V. & M. railroad depot. He was taken to the work-house where another drummer, who had lost a valise at the V. & M. depot Monday night, identified him as the man he had suspicioned as havcolumns of this paper, making serious ing stolen his valise, and identified the charges against said Gilmer, died at clothing which Johnson wore as those belonging to him and which he had in his valise at the time it was stolen. There is no doubt as to Johnson's homestead where he died. He was identity and that he is a member of a 24 years of age, was a native of At- gang of sneak thieves who are now making our city headquarters. A reported daily, and there seems to be no remedy for it.

Two Hearts That Beat as One. Albert Gallatin Corchoran, a youth ful boy, walked into the circuit clerk's office yesterday and desired a license te marry Miss Ella Mason Tucker, who in company with another lady awaiting him in a wagon at the gate. Clerk Lehman asked bim if he had a written consent from his parents, when he informed him that they were dead. Mr. Lehman then informed him that he would have to get the consent of his guardian. Corchoran went to the wagon and soon returned with one of the ladies, who said she was his sister and guardian, and had given her consent, whereupon the license was issued and the party drove down to Judge Loewenberg's court where they were soon made happy by the judge.

Those Privilege Licenses.

It is said to be an ill wind that blows no good. The decision of the supreme court in the insurance case Monday, a synopsis of which was published in the Jackson special to this paper yesterday morning, caused something of a sensation in business circles here yesterday. Early in the day the sheriff's office was beseiged by tradesmen of various grades and classes who were anxious to increase their privilege license so as to make them tally with their insurance policies. This class of citizens had pald in an additional amount of State tax up to four o'clock of \$485, many of them only having one-third the requisite amount necessary to make them safe insurance beneficiaries under the law, according to the rulings of the supreme court. A number of persons went forward and procured their privilege license who had not been in possession of them before; and it was a notable fact that this was the first time the sheriff of this county has ever seen the business men of the town anxious to pay their privilege taxes. A number of small venders, who had already procured their license, were in quest of information as to whether cured it was not necessary for them to increase the same or not. Insurance policies generally throughout the city received an airing and the information from attorneys was sought by many. The result of this will be a material increase in assessments which will redound to the general good of the city, county and State treasury at the next gathering of the "tithes."

Murderer Arrested. About six months since Arthur Nightingale, a negro laborer at Matfound in the lake below the elevator. It was supposed at the time that he was adopted. had struck his head against the side of the boat in falling, as his skull was crushed in or injuries shown which would indicate that such was the result of his fall and such was accepted when Constable Grimes went to the coal yard and arrested another laborer by the name of Charles Dorsey, on a warrant based upon an affidavit made by the mother of Nightingale, charging the said Charles Dorsey of having killed her son with an ax-handle on board of one of the barges about four o'clock in the evening, and having thrown him overboard, then giving the alarm and stating that he had struck his head against the barge as he fell. Dorsey was very much surprised when approached by the officer and apprised of the cause for which he was wanted. Esquire Loewenberg committed him to jali without bail until a further hearing can be had. Verily it is an old but trite saying that "Murder will out."

A Mule Thief. Levi Eilir gton stole a valuable mule on the 24th of December from Sam Lawson, a tenant on Mr. Jesse Ferguson's plantation in this county and sold it to Mr. D. W. McBroom, a farmer and justice of the peace of the was heard of the mule until yesterday, when Mr. Ferguson identified it hitched in a wagon in front of the court-house when an investiga-tion saddled the theft upon Levi Elhearing. County citizens complain and other associations that there is too much of this thieving sale of pistols and pist going on, and say they are getting very tired of it. The city has its share of thieves and some decisive action should be taken by the officials to put a stop to it.

The Trouble Among the Miners in Missouri.

BEVIER, Mo., Feb. 17 .- No work was done in No. 1 mine yesterday, but at No. 4 a few colored men went down into the pit, and at noon a number more resumed work. By evening Mr. Loomis claims nearly a full force had gone to work. It is understood measures have been taken to form an agreement, which all colored miners were urged to sign, binding themselves not to work if a reduction in wages was number of cases of petty thieving are made. Mr. Loomis says his men are nearly all contented. A few of the colored miners, however, had been bribed by white miners and were endeavoring to stir dissatisfaction among the rest, but their effort had met with little success. The negroes say no strike has been decided on, and all free to work who choose. They deny, however, that more than fifty men were at work today, and are still firm in the belief that Mr. Loomis will not make a reduction, and await the action of the committee appointed to confer with him.

Caucus of Republican Senators. WASHINGTON, Feb. 17 .- About twenty Republican Senators met in caucus this morning. Senator Edmunds submitted a resolution from the juliciary committee, embodying the views of the Republican members, respecting the rights of the senate to information from heads of executive departments. The resolution was approved and it was decided it shall be offered in open session of the senate,

The resolutions are three in number. The first declares that the action of the attorney general in refusing to furnish information when called for by the senate, no matter what his motives may have been, was reprehensible.

The second declares that where the senate has called or may call upon heads of departments for information regarding removals from office, and the information is not furnished as requested, the senate will not confirm the appointee.

The third condems the disregard of the law which requires that in the selections for office, preference be given to honorably discharged Union soldiers and sailors.

It is understood that the resolutions clary committee at its next meeting with a view to having them reported to the senate thereafter.

TALK.

We Live and Permit Others to Exist] DEXTER, TEXAS, March 16, 1886. BLOOD BALM Co.: It is a great pleasure to

us to state to you that your B. B. B. takes the lead of all purifiers in this country, on accountof the cures it has effected since we have handled it. We had a case of scroful in our neighborhood, of long standing, who had used all patent medicines which were recommended to him; besides this, he also had several doctors any good. He grew worse every day, and had not left his bed for the last six months. We had seen him several times in our little town, though it has been more than fifteen months since we

last saw him, and we suppose this was the last time he was table to come to town, as helly about eight mites in the country. His name is Servenka, and we got a neighbor of his to per-suade him to try B. B. B. and, after using only ONE BOTTLE he left his bed for the first time in six months. To the present time he has used less than three bottles, and he is walking around visiting his friends in the nighborhood. He has gained strength and flesh rapidly. All scrofulous sores

are healing finely, and you never saw a happier, man than he is. Nearly everybody for miles around has heard of this wonderful cure, and all who need a blood remedy call for the B. B. B. We had a case of nasal cutarrh in our own family (a little girl four years old), who has been using B. B. for about two weeks, and already seems to be about well.

We have only three bottles left, and want you to ship us atx dozen bottles, We take pleasure in recommending B. B. B. as a medicine worthy of the entire couff dence the public. Its action is more rapid than any

blood remedy we ever handled LIBUTKE BROS.
